

CUSTOMERS OF CEDARBURG LIGHT AND WATER COMMISSION

Cedarburg Light & Water Utility has served the Cedarburg community for more than 120 years and we take pride in providing reliable service at the lowest possible cost. As a not-for-profit utility, we regularly review our rates to ensure enough revenue is received to cover our cost of doing business. We are honored to be an integral part of the community we serve.

Cedarburg Light and Water Commission has filed an application with the Public Service Commission of Wisconsin (PSC) to increase electric rates. The adjustment is necessary in order to cover inflationary increases in operation and maintenance expenses that will allow the utility to continue providing reliable and quality service to our customers. The last electric rate adjustment was a decrease in rates approved in October 2022.

The utility is requesting an overall increase above the electric utility's present revenues of 8.67%, or \$1,085,318. This request is detailed in Cedarburg Light and Water Commission's electric rate application submitted to the PSCW on December 29, 2023. After review, Commission staff proposed a revised increase in rates of \$696,881 or 5.57%. The actual change to individual customers will vary with electricity usage, class of service and the ultimate rates authorized by the Commission. If the application is approved by the PSCW, per staff recommendation, the average residential customer using 665 kilowatt-hours (kWh) of electricity per month will see a monthly increase of approximately \$4.79, or 5.6%.

An audiovisual hearing on the application has been scheduled for Wednesday, July 10, 2024, at 2:00 p.m. (CDT). This virtual hearing has no physical location at PSCW's office in Madison, WI. Members of the public may attend by internet or telephone or listen to the live broadcast on the PSCW's website at <http://psc.wi.gov> under the "PSC Live Broadcast" button.
